Re: Program Reviews

Dear Colleague:

The purpose of this "Dear Colleague" letter is to advise you of a recent change to the Program Review Reports and Letters issued by the Compliance Unit of the Georgia Student Finance Commission (GSFC).

Effective immediately, in order to protect the privacy of your students, we will no longer include a student's entire Social Security number on these documents. Instead, we will list the student's name and the last four (4) digits of his or her Social Security number. You may contact the GSFC Compliance Unit if you are unable to identify the student using this information.

As you know, protection of an individual's private information is a priority for GSFC; and, while we apologize for any inconvenience this change may cause, we hope you will understand its importance.

Please feel free to contact Cynthia Abbott at 770-724-9133 if you have any questions or comments.

Sincerely,

Timothy A. Connell
