

New Features Well Received

Since the launch of the new version of GAcollege411, we have seen an increased number of accounts created and have received very good feedback about the site. There have been over 500 participants in the GAcollege411 webinars that we hosted. We have had over 100 participants in the hands on training sessions. We are conducting more training throughout the fall in various locations across Georgia. It has been a busy start to the academic year, but we are excited about the response the new site is receiving.

We wanted to share a comment with you from one of our GAcollege411 users:

Brittany S. – Washington County High School

“I would just like to comment on this website. It has been the most helpful website for me in my college and career searches. I have also learned more about myself by using this website. Thank You so much for the ability to figure out who I am and what I want to be. Because of this website I know that the career I wanted to have is not right for me. Thanks Again!”

We look forward to sharing additional success stories with you over the next few months.
