

Scholarship for Engineering Education (SEE) Service Cancelable Loan Program
FY2011 Regulations
Executive Summary of Substantive Changes

The following list highlights the major changes to the Scholarship for Engineering Education (SEE) Service Cancelable Loan Program Regulations for FY2011. An attached chart outlines all changes.

- 1) The formatting for these regulations was updated to match the formatting of the HOPE program regulations.
- 2) Sections were included to add the availability of both deferments and forbearances, based upon criteria previously approved by the Board. An additional deferment option was added for recipients serving in the United States Peace Corps.
- 3) The term "Appeal" was changed to "Administrative Review". The definition was adjusted so that the use of the word appeal is removed from the regulations. An Administrative Review is a review of an eligibility determination by a Commission staff member to determine if the program laws, regulations, and policies were correctly applied to a student's specific case.
